For Acute Care

Meet the SR Family of Professional Medical Scales for Acute Care Applications

Did you know?

For over 40 years SR Instruments has been providing the medical community with a wide range of robust and accurate medical scales designed specifically for the acute care industry. Our extensive experience stems from years of innovative designs for OEM weighing applications that translated to building our own brand of high-quality products known as SR Scales.

By listening intently to the needs of our medical professional customers, we continue to develop a leading array of innovative solutions for patient weighing. Whether you need a single replacement scale or seeking to standardize on scales across multiple hospitals in your system, we invite you to discover the SR Scales difference for your facilities:

- Extensive line of stand-on scales to best meet patient and facility weighing requirements.
- Easy-to-use wheelchair scales that provide that right scale for your facilities.
- Industry-leading designs for pediatric scales.
- Largest selection of wall mount scales, from bariatric wheelchair scales to extra-large stretcher scale platforms.
- Antimicrobial product protection on all scale lines: stand-on, wheelchair, wall mount, and pediatric scales.
- Factory direct communications with the engineering team – let us know what you need and we can build it.
- 1,000 lb capacity on stand-on, wheelchair, and wall mount scales.
